

Pesach

Yeshivat Netivot Montessori

Matzah Factory!

A Netivot tradition was enjoyed again this year. The model Matzah bakery demonstrated how "matzah shmurah" is made for Pesach. All of the Pre-Primary, Primary, and upper elementary students had the opportunity to learn how the grain is "watched" from the time of harvest, how it is made into flour, and the amount of time that may elapse in the baking process. Then they rolled up their sleeves and baked some matzah of their very own. Upper Elementary students were particularly happy to assist their younger friends.
