

YOM HA'ATZMA'UT

Netivot Celebrates Israel's Independence

Students from Infant through Upper Elementary enjoyed a wonderful Israel-themed experience at the annual Yom Ha'atzma'ut carnival prepared by the Netivot Parent Network. This year, the program was designed to present a more high tech image of Israel, with booths ranging from Technion (building a structure) to Weizman Institute (science experiments) to Bezalel Art Academy (craft project). In the afternoon, Elementary and Primary students took part in outdoor games and an obstacle course and received some basic training from Morah Adi Geva, a captain in the Israel Defense Forces.
